in/marius-ailisoaie

Technical skills

Frontend: JavaScript, TypeScript, HTML, CSS, React, Next.js, Tanstack, Redux, Zustand, Tailwindcss

Backend: Node.js, Express, MongoDB, NeonDB, Redis

AI Tools: Codex, Grok Build, ChatGPT

Deployment: Vercel, Netlify, Firebase, Cloudflare, DigitalOcean

Miscellaneous: Linux, Git, GitHub, Docker, Pnpm

Soft Skills

Great problem-solving
Great communication
Willingness to learn
High adaptability
High attention to detail

Marius Ailisoaie

Software Engineer

Profile

Software Engineer with 3+ years of experience building and maintaining production applications. Strong focus on the TypeScript stack (React, Next.js, Tanstack). I build everything from early idea to production. I use AI tools to improve my productivity and my multitasking ability.

Work experience

Software Engineer

Personal Projects

May 2024 - Now

- Built a digital library (functionality for regular users and admin book management)
- Built a free resume builder website that stores the data locally
- Built a car management system for tracking repairs and service
- More projects on the pipeline

Senior Front-end Developer

Document Drafter

April 2023 - April 2024

- Worked on transitioning the platform from version 3 to 4 in which we used newer technologies and better code standards
- Improved different parts of the platform by refactoring, bug fixing and upgrading build tools for better performance
- Worked on automating the quality assurance testing

Full Stack Developer

Valuer.ai

March 2021 - March 2023

- Rewrote the entire backend and created new endpoints for the data and research teams
- Built many new frontend features for manual CRUD operations
- Worked on data processing and database migrations

Languages

English	Fluent
Danish	Basic

Junior Full Stack Developer

Hairpal ApS

April 2019 - August 2019

- Built a new login system using Node.js, Express and MongoDB
- Built a dashboard for the hairdressers where they can see their future bookings
- Built a calendar view for the hairdressers

Web Development Intern

Hairpal ApS

January 2019 - April 2019

- Added more pages and content to Hairpal's websites using React, GatsbyJS, GraphQL and Netlify CMS
- Worked on a custom calendar link generator (for Google Calendar, iCal and Outlook) which we published on NPM
- Implemented parts of the new design for the booking platform

Education

Software Development

KEA - Copenhagen School of Design and Technology

January 2018 - June 2019

Courses taken:

- System Integration and Software Testing
- Software Design Patterns
- Development of Large Systems
- Databases and Web Security

Computer Science

KEA - Copenhagen School of Design and Technology

August 2015 - January 2018

Courses taken:

- Software Construction with Java
- Software Design
- Full Stack Development with Node.js
- Intro to Android Development
- C programming for Devices
- Operating Systems and Computer Architecture
